Colen AKA the Boss

To obfuscate is to hide or circumvent S3CUR1tY the is calculated Ladies and Gentle folk and colen and ryan

Colen you will remember I sent you a clear memo Tue 5/03/2024 7:50 AM to be exact, you will find this of me. you personally were fully aware of the PID, The Commission new in writing, he was informed. Its all in the cloud colen so you can't just smash my door down, doesn't work like that anymore. I have a skill set which I have not even flexed, I am a PenTester, that means reverse hacker colen.

I have lots of really good friend in WAPOL, 3 of my close friends are Detectives. I have much respect. I haven't breathed it to a soul because I can be team player but colen takes me for a fool. I assert colen that I can't spell my own name because I rear issue with my eyes however I am a genius with mathematics and all things extremely technical.

Full disclosure, the Five Eyes is in the Room and I am bringing the Kings Wrath to your door now colen the commissioner and everyone will be watching for what you have done to me.

This person [Ryan.EBBERT@police.wa.gov.au](mailto:Ryan.EBBERT@police.wa.gov.au)

Has been in the country for 10 months, can you explain to me why you let him put me on a terrorist watch list for being accused of spelling mistakes?

I report to several internal agencies on topics akin to keeping the wheels well-greased and spraying for cockroaches, I am a good citizen, while I was carrying out my duty I was ruthlessly set upon by the person which after 4 months resulted in me being listed for no reason on a watch list which has effectively ruined my life. colin can explain to me why firearms is able to get hands on PID reports before the PID and also explain how someone who has been in Australia for 5 when he raided me yet is able to list me in a database and has 10 times more power than all the duys I know. With zero oversight and maliciously, I would also like to know why you hired a Russian Serbian hacker and gave him full access to government servers when it only took me 10 minutes to figure it out. I just cant belive its me that has too, that's the only surprise.

Can you confirm is legal to download stolen data on foreign website with your government credentials, and we are talking about sensitive stolen data used by cybercriminal's. That's legal right? And its legal to order troops to someone house and order them to steal because they made grammatical errors correct? I just wanted to clear it up which criminal charges I will bring up, there is just so many, is very confusing. if I seem confused its because I thought you were the police. colin you have been so kind in denying me access to internal affairs and threatening the troops. My name in Conrad yeas I am sure you know me, as you been pulling all my recordings and making Mix tapes rather than doing your job. I am like 5 Eyes it's my job to know these things.

- How did he get the report?
- Hes been in Australia for 10 months,
- no legit background, and is Russian/Serbian Hacker as his finger print dictates with no connections in the US, that's Zero
- Downloads stolen credentials and data

I seem to be doing a lot of the Governments heavy lifting.

Your put the noose around your neck, I would really like to not be listed on the data base but seeing how you just listed me anyway given the I had PID status and you could care less putting my life in danger from what would appear now to be taken of face value something like Russian Mafia but more insidious. Thank you so much it's such a wonderful feeling to sit in your home and wonder when an Mob Hit Man is going come an kill you because a the head of the police thought it was a great idea to publish your info to Russian mafia. And because of the Database if I were to call I would get arrested, kudos,or was that by design? You stole all my possessions also. I clearly pointed out the offence, 5 years in prison for harassing me. Ryan had my PID, AKA Russian hacker, evidence, State Evidence. It were as though it was more important to intimidate me than it was to go to prison for 5 years as that is the maximum penalty. Ryan, at first I thought the man was daft as a hammer, it was only when he really annoyed me did I do a Check on this character, then it clicked. Your Ryan was not from around here, and he's been sweating like a rapist outside of a kindly ever since the Badger arrived at the crime scene to with I was at, the government network. Yes colin I have seen enough networks to know when a Serbian ransacks my house I know what time it is, I live in the Jungle colin,

The most unsettling part is that not a single person ever mentioned it, you ordered those men, I know, they had not a clue why they were there. Apart from accusing me of having poor grammar, you can see where I am going. colin,

- why are you riding me. I am a good man.
- why did you not let me ask for advice,
- why did you threaten everyone,
- why did you rob my house,
- why did you list me on a terrorist watch list because that what it is?

Colin you don't know me, my name is given My Clan is Brookes O'Halloran Kennedy, I would like to clarify, my grandfather fought 7 years on the front lines in WW2, he beat the hell out of Rommel for the Queen, he was a Royal, literally, I am royal bloodline, My great Uncle was Joseph O'Halloran admiral of the Royal Navy, Knighted by the Queen Victoria, not only was the Admiral, he was a brilliant battle field tactician, I honour his memory. These were not men you trifle with. Thomas his son established the SA Police department, In Australia. My Cousins were JFK and RFK. Notable is RFK was renowned and a pit bull of a lawyer as is his son who I talk to from time to time RFK Junior

I am establishing the basis for who you attacked. I wish it to be noted, the mess was so big it was like a car drove through a house. I am here against my will, Ive seen this before, people like you try to palm your mistakes off on other people, like framing. if it were held in trust you made a mess, if not then well I say call forth the dogs of war.

Alas to not trouble yourself, if you remove my name return my Items the badger would like to be on his way. Otherwise I through down the Gauntlet.
